What are donated licenses? These are software licenses that were donated by our donor partners to be redistributed to our NGO networks for a minimal admin fee worth 5% of its original price. This admin fee not only helps us sustain this program, but also helps us to help even more NGOs across the globe - while helping you save over 95% off from your usual tech expenses!

Find your TechSoup program

Begin your tech transformation today with TechSoup! Allow yourself to access valuable tech resources while saving money that can be reinvested to further improve your programs and impact.
